|---|--|
| <u>Industry</u> | Transport Infrastructure: Construction and Engineering |
| <u>Summary of the activities of your business/organisation</u> | High Speed Two (HS2) is Britain's new high speed railway and is Europe's largest infrastructure project. It will transform travel for future generations and open up new employment and training opportunities for young people across the country. At peak construction 30,000 people will be working on the HS2 project. |
| <u>Number of employees</u> | More than 9,000 people including our supply chain. |
| <u>Routes in to your business/sector</u> | Range of apprentice, graduate and entry level roles. We will be creating 2000 apprenticeships over the course of our project. |
| <u>Opportunities</u> | As well as the engineering and construction roles you might expect, we need talent in business roles such as Finance, IT and Human Resources and other specialisms such as Ecology, Archaeology and Design. |
| <u>Location/s:</u> | Offices in Birmingham and London. Construction work between London, Birmingham, Leeds and Manchester. |
| <u>Website /Contact</u> | https://www.hs2.org.uk/careers |
